**Professional Summary**

A highly skilled and organized Bachelor of Information Technology graduate with a specialization in front-end React development and PHP. As a mid-level JavaScript developer, I bring extensive experience in creating dynamic and interactive web applications using React for front-end and PHP for back-end. I have successfully built and maintained numerous projects, including Chrome extensions, showcasing advanced JavaScript expertise. Eager to contribute my technical knowledge and passion for innovation to a collaborative team environment while continuing to expand my full-stack development skills.

---

**Education**

**Mount Kenya University** – Jan 2021 - Aug 2024

*Bachelor of Science in Information Technology (BSc IT)*

**Don Bosco Secondary School** – Feb 2016 - Nov 2019

*K.C.S.E*

**Iman Dhahabi Academy** – Jan 2009 - Nov 2014

*K.C.P.E*

---

**Skills****Front-end Development**

- Advanced expertise in React for building user interfaces, components, and single-page applications (SPAs).
- Strong proficiency in JavaScript, with experience in developing numerous projects, including Chrome extensions.
- Proficiency in HTML and CSS for creating well-structured, responsive web pages.

## Back-end Development

- Robust experience in PHP for server-side applications and MySQL for database interaction.
- Skilled in designing and implementing CRUD operations for seamless data management.

## Design and Prototyping

- Skilled in Figma for creating mockups and prototypes tailored to project requirements.

## Version Control

- Proficient in Git for managing codebase versions and collaborative development.

## Additional Skills

- Excellent communication skills for effectively conveying technical concepts to non-technical stakeholders.
- 

## Experience

### Attachment at Moya Institute

*Sep 5th, 2023 – Dec 5th, 2023*

- Specialized in developing front-end React components and working on single-page applications (SPAs).
  - Enhanced back-end development using PHP and MySQL for dynamic web solutions.
  - Created and implemented mockups and prototypes in Figma, streamlining design workflows.
  - Collaborated on peer code reviews and implemented feedback to ensure high-quality code.
- 

## Projects

### Real Estate Website

Developed a fully functional real estate platform using PHP, HTML, Bootstrap, and MySQL. The project featured secure payment systems for tenants and a comprehensive landlord management system, deepening my expertise in front-end and back-end communication.

---

## Extracurricular Activities

- **Volunteer Work:** Participate in food drives for children's homes, leading donation collection and distribution efforts.
  - **Self-Paced Learning:** Continuously improving my skills in full-stack development, focusing on mastering React and PHP through platforms like The Odin Project.
  - **Codebase Modernization:** Regularly update old project codebases, integrating new skills and modern development practices.
- 

## Hobbies

- **Football:** Enjoy playing football to stay active and unwind after coding sessions.
  - **Video Games:** Enjoy playing video games as a means of relaxation and mental stimulation.
-
